Job Number: 29352250
Work was performed: January 2025

Dear Owner:

This letter is to confirm our completion of the under-slab plumbing repair performed at 3103 Steck Avenue, Austin, TX 78757. Please note that Church Foundation Repair performed a hydrostatic test on the drain line system after the plumbing repairs were completed. This test showed that there were no leaks on the drain lines.

You have a one-year warranty against leaks on the area(s) that were repaired. This warranty covers our workmanship, and the manufacturer warrants materials used. This warranty does not include blockages of the drain line system. If a blockage does occur during the warranty period, contact Church Foundation Repair, and a service call will be scheduled for a technician to clear the blockage. The information gathered by the technician will be returned to the office and reviewed. If it is determined that Church Foundation Repair is at fault for the blockage (i.e. poor workmanship) then the fee for the service call will be waived.

If you have any questions, please feel free to call us any time at 713.468.8400. We appreciate your business!

Sincerely,

Church Foundation Repair
/NM
