

Home Improvements

Property Address:

187 Willard Rd, New Ipswich, NH

- New furnace & oil tank in 2019
- We tore down the center of the house ~~to~~ to rebuild it taller and add more square footage to the house. We completely gutted the whole house except the kitchen. New plumbing, electric wires, flooring, drywall, trim, doors, windows, siding, roof, & base board heat, was done in 2020. In 2022 we redid the septic ~~system~~ system & the ~~kitchen~~ kitchen. We did radiant heat in the kitchen floor & pantry floor.

The whole house was remodelled & renovated except the basement and sauna, which is located in the basement.

The 1 door that is part of the original house is the master bedroom closet. That door was built by my grandfather, that we repainted and used for our closet.
