MEDIA

High-Quality, Professional Real Estate Media Services Columbus, Ohio and surrounding areas.

Services including photography, videography, aerial, drone, floor plans, 3d tours, and more.

My goal is to photograph your home with the highest quality that will wow buyers and attract offers. To ensure your photoshoot goes smoothly and safely, I've put together this preparation checklist of things you should do prior to your scheduled shoot.

What to expect for your photoshoot?

- Shoots take an hour for small homes and up to 3-4 hours for large homes (or homes with additional services) You need not be present as I have ekeys.
- If the house is not entirely prepped, you may want to reschedule. I am glad to help move things as time permits but cannot exceed the time window for the shoot as it risks making them late for the next appointment.

General Prep

- Be shoot-ready: Cleaning and staging needs to be done before I arrive, preferably the day before your photoshoot. I may move small items (flowers, small pictures, etc.) to improve photo composition, but larger items need to be in place before I arrive, and staging accessories need to be in place as well.
- Secure or remove pets: I love pets, but we can't have them around for your photoshoot. Dogs must be secured or off the property to ensure the safety of myself and my equipment. MLS rules also prohibit people and pets from being in pictures. Cats should be secured as well, although they usually pose fewer problems than dogs (cats often just hide). It's also a good idea to hide pet food and water bowls as well.
- Plan not to be seen: All occupants should plan on either being off the property or remain in areas where they can't be seen during the photoshoot. Rooms overlap in the photos, people can cause shadows and reflections, and there is a risk to equipment that will be setup throughout the property.
- Use the garage for storage: I normally don't shoot garages, so this is a great place to store items you'd like to hide.

Outside Prep

- Clear the cars: Make sure no cars are in the driveway. Close garage door. If possible, also move cars from the street in front of the home. We want as clear a view as possible of your property.
- Do NOT wet driveways: If a wet look is desired, this can be added in the editing process. Watering driveways can cause patches of dry spots and puddles, so adding it in editing is best.
- Hide trashcans: Trashcans can be placed on the side of the property or in the garage.
- Hide hoses: Do this the day before the shoot since hoses can drip water onto the pavement when being moved, leaving puddles in your pictures.
- Mow and trim the yard: Do at least 24 hours prior to your photoshoot.
- Turn off sprinklers: Do not water the day of the shoot to prevent puddles on pavement.
- Pick up poop: If you have a dog, make sure that all of their droppings are cleared from the yard.
- Prep pool and spa: If you have a pool and/or spa, please have them clean with covers removed. For spas, provide instructions to the realtor on how to turn it on.
- Prep water features: If you have fountains, waterfalls, etc., please clean them and provide instructions to the realtor on how to turn them on.
- Remove for-sale sign: The for-sale sign should be removed from the property or installed after the shoot, since visible signs violate MLS policies and can't always be edited out.
- Clean patio furniture: Dust and remove cobwebs from all outdoor furniture. **Do not** hose down your furniture the day of your shoot, since this can create puddles.

Inside Prep

- Turn on lights: Before I arrive, please make sure all interior lights are turned on. If need be, please replace all burned-out bulbs at least 24 hours before the photoshoot. Floor and table lamps may be better off, your photographer will help you decide.
- Turn off ceiling fans: Before I arrive, please make sure all ceiling fans are turned off.
- Declutter kitchen: A few items on the counters are usually fine, but dishes, sponges, rags, etc. should be put away. It's best to remove all magnets, pictures, etc. from the refrigerator and remove throw rugs from the floor.
- Dining area: Clear table, or dress table with decorative place settings. One centerpiece is okay. Straighten all chairs and space them evenly. Remove child seats/booster chairs.
- Declutter bathrooms: Toothpaste, toothbrushes, razors, and other "personal" items should be hidden. Decorative unused soaps, candles, flowers, etc. are preferred. It's also good to remove all throw rugs from the floor. Put toilet seats down, hide bowl brush and plunger.

- Prep bedrooms: All bedrooms should have their beds made and personal items put away.
- Hide trashcans: Trashcans can distract so it's best to hide all of them in closets or the garage.
- Hide portable fans: Ceiling fans are selling items, but portable fans can give the wrong impression. It's best to hide all portable fans in closets or the garage.
- Turn all TVs/ Computer screens off.
- Hide cords and remotes: Sometimes electrical cords can't be hidden, but you will have more appealing pictures if you can hide TV remotes, game consoles, and any noticeable cords.
- Clear entryways: Remove all shoes, umbrellas, and similar items from entryways.
- Open blinds with views: Your indoor photos will show outdoor views if there are views, or just light if a window looks onto a neighbor or other unappealing view. (You may either spin blinds open or pull them all the way up)

Twilight Prep

If you've scheduled a twilight shoot the following are additional items to prepare before I arrive. Note that twilights have tight schedules to ensure optimal lighting, so please make sure all these items are ready before I arrive.

- Turn on all interior and exterior lights: All lights throughout the property need to be turned on. Please replace all burned-out bulbs at least 24 hours before the photoshoot.
- Turn on spas and remove covers: If you have a spa, remove the cover, and turn it before I arrive. Turn on the lights in the spa as well.
- Turn on pool lights: If you have a pool, turn on the pool lights before I arrive.
- Turn on water features: If you have fountains, waterfalls, or similar water features, please turn them on before I arrive.

Thank you for your time and patience to go through this checklist! If you have any questions, please feel free to contact me anytime.
