126. Are you aware of any water leakage, accumulation or dampness, the presence of mold or other similar natural substance, or repairs or other attempts to control any water or dampness problem on the Property? If yes, please describe the nature of the issue and any attempts to repair or control it:

423 FLOOD RISK

424 Flood risks in New Jersey are growing due to the effects of climate change. Coastal and inland areas may experience significant flooding
 425 now and in the near future, including in places that were not previously known to flood. For example, by 2050, it is likely that sea-level
 426 rise will meet or exceed 2.1 feet above 2000 levels, placing over 40,000 New Jersey properties at risk of permanent coastal flooding.
 427 In addition, precipitation intensity in New Jersey is increasing at levels significantly above historic trends, placing inland properties at
 428 greater risk of flash flooding. These and other coastal and inland flood risks are expected to increase within the life of a typical mortgage
 429 originated in or after 2020.

431 To learn more about these impacts, including the flood risk to the Property, visit njbreal.to/flood-disclosure. To learn more about how to
 432 prepare for a flood emergency, visit njbreal.to/flood-planning.

435 [] [✓] [] 127. Is any or all of the Property located wholly or partially in the Special Flood Hazard Area ("100-
 436 year floodplain") according to FEMA's current flood insurance rate maps for your area?

437 [] [✓] [] 128. Is any or all of the Property located wholly or partially in a Moderate Risk Flood Hazard Area

439 [] [✓] [] 129. Is the Property subject to any requirement under federal law to obtain and maintain flood
 440 insurance on the Property?

Properties in the special flood hazard area, also known as high risk flood zones, on FEMA's flood insurance rate maps with mortgages from federally regulated or insured lenders are required to obtain and maintain flood insurance. Even when not required, FEMA encourages property owners in high risk, moderate risk, and low risk flood zones to purchase flood insurance that covers the structure and the personal property within the structure. Also note that properties in coastal and riverine areas may be subject to increased risk of flooding over time due to projected sea level rise and increased extreme storms caused by climate change which may not be reflected in current flood insurance rate maps.

448 [] [✓] [] 130. Have you ever received assistance, or are you aware of any previous owners receiving assistance,
 449 from FEMA, the U.S. Small Business Administration, or any other federal disaster flood assistance
