Product/Service	Description	Qty.	Unit Price	Total
Drain field Install	This drain field install includes a drain bed 18' wide and 47ft long. The new drain bed will be over excavated pass the hard pan layer around 66 inches and then backfilled with approved ASTM Sand to 48 inches below grade. Drain rock and pipe will be installed at 48 inches. Fabric will be placed over the rock and the drainfield will be inspected before backfill. This also includes connecting and installing a new pipe from the existing outlet pipe. A diverter valve will be installed to be able to switch between drain fields. The outlet baffle of the septic tank will be inspected insuring it is in good condition. After the drain fill is inspected by the health department. We will fix all broken irrigation lines and sprinklers. All extra dirt will be hauled offsite unless requested otherwise fresh clean topsoil will be spread over the yard To grow new sod.	1	\$12,670.00	\$12,670.00

Reviews

Tami Martin

Zach did a great job and was easy to work with. He was able to help us out quickly.

Linda Perryman

The individuals that came out today were absolutely fantastic!

Tim McMahan

Zach and his crew are the best. Couldn't ask for a harder working group of guys to do the job right. I've had a couple septic systems done and some retaining walls built by them and couldn't be happier with their work. Always professional and always willing to go above and beyond. Evenhouse Excavation is the only company I use for big jobs now and the only company I highly recommend to others.
