MA. LICENSE #12647 • FEDERAL TAX I.D. 04-3111050

LETTER OF FULL DELEADING COMPLIANCE

Dear Mr. & Mrs. Minichello:

Date: 2/10/96

This letter is to certify that I inspected your property located at 2 Gibbons Ave, apartment no. Single, and relevant common areas, in the City or Town of Milford MA., for full deleading compliance on 2/3/96, and on that date those surfaces cited in the initial inspection report of 5/12/95 were found to be in full compliance with Massachusetts General Laws, Chapter 111, Section 197, and 105 CMR 460.000: Regulations for Lead Poisoning Prevention and Control.

Massachusetts law does not require the abatement or containment of all residential lead paint. The residential premises or dwelling unit and relevant common areas shall remain in compliance only as long as there continues to be no peeling, chipping or flaking lead paint or other accessible leaded materials, as long as coverings and/or encapsulants forming an effective barrier over such paint or other leaded materials remain in place, and as long as surfaces reversed to correct lead hazards remain reversed and securely in place. See the reverse side of this letter for the location(s) of surfaces which were covered, encapsulated or reversed as an abatement method to achieve compliance, if applicable. A complete reinspection report is attached to this letter.

To the best of my knowledge, the cost of the legally required deleading is \$ \$8540.80

Sincerely,

Allen E. Gay
Inspector
