(H) Dam

Information concerning the registration and categorization of a dam on the property may be obtained from the Department of Energy and Environmental Protection.

(I) Flood Insurance, Flood Maps and Flood Risk

Federal law requires owners to obtain and maintain flood insurance for properties financed with a federally regulated or insured mortgage in a Special Flood Hazard Area, also known as a high-risk zone on FEMA’s flood insurance rate maps. In addition, for properties that have previously received federal disaster assistance, owners are required to obtain and maintain flood insurance as a condition to be eligible for future assistance. This requirement affixes to the property and applies to all future owners. FEMA flood maps are not designed, nor intended to be, a reliable tool for buyers to assess a property’s flood risk. A property does not have to be near water or in a flood zone to flood. For additional information on obtaining important flood insurance, contact an insurance professional.
