# Agreement Overview

Sunrun Is Serious About Providing You Quality Service for the Life of Your Contract.

## SOLAR PEACE OF MIND

- ✓ Sunrun offers a Performance Guarantee. If your system does not produce the power output guaranteed in this agreement, we'll refund you for lost power.
- ✓ If your system overperforms you keep the excess power free of charge.
- ✓ Sunrun's customer care team is available by phone and email to respond promptly to any questions or concerns you may have.
- ✓ When we arrange for installation of a system, Sunrun owns the panels, and we monitor them constantly. Sunrun will insure, maintain, and repair the Solar Facility at no additional cost to you including inverter replacement.
- ✓ Sunrun only works with insured partners who have all required licenses to perform the work necessary to install and maintain your system.

## AGREEMENT OVERVIEW

Sunrun wants you to be confident in choosing us as your solar power service provider for the next 20 years. While it's still necessary to read your entire Agreement, there are a few important points to be aware of:

- After going solar you will continue to receive a bill from your Utility. Based on the information you provided Sunrun about your previous year's power consumption of 9,240 kWhs, your system is sized to offset 90% of the power you currently purchase from your Utility.
- This Agreement becomes effective when both you and Sunrun have signed the Agreement and continues in effect for 20 years following the date your Utility grants permission to operate the Solar Facility.
- Your first year monthly payment amount is \$79.26. This amount will increase by 2.9% annually for the term of the Agreement. This amount includes a \$15.00 discount per month for automatic payment through ACH withdrawal from your checking or savings account.
- Sunrun offers a 100% Performance Guarantee. If your system underperforms, Sunrun will refund you for lost power at the rates shown in Exhibit A. If your system overperforms, you keep the excess power at no extra charge. Sunrun warrants that roof penetrations will be weather-tight for a 5-year period after installation.
- You are responsible for payments during the full term of this Agreement. If you sell your house, you have two options: 1) Transfer the Agreement to the new homeowner, 2) Purchase the system. You may prepay the remainder of the payments due under the Agreement to make the transfer even more attractive to the new homeowner. Whichever option you choose, Sunrun will guide you through the process.
- Your request for a pricing plan change must be submitted within 21 days of signing this Agreement, but before installation has begun. If installation begins within 21 days of signing this Agreement, the start of installation will mark the date after which you can no longer change your pricing plan.
- You may only purchase the Solar System at certain specific times during the term of this Agreement. Those times are listed in section 10.
- At the end of this Agreement's 20 year Initial Term: 1) Sunrun will remove the Solar Facility at no cost to you, unless you 2) Purchase the Solar Facility at its then fair market value, or unless 3) This Agreement is automatically renewed per the terms specified in Section 12 and Exhibit A.

## EXHIBIT A: SUNRUN ELECTRICITY PRICING

At the signing of this Agreement, you will pay Sunrun a **non-refundable** Deposit ("*Deposit*") of \$0. At the start of installation of the Solar Facility, you will pay Sunrun an Initial Payment ("*Initial Payment*") of \$0. Together, these payments comprise the Upfront Payment ("*Upfront Payment*").

Electricity Payments: In addition to the Upfront Payment, you agree that for all electric energy you purchase from Sunrun during the Initial Term of this Agreement, you will pay a price per kWh in the form of monthly payments ("Monthly Payments") as shown below. The Monthly Payments shall increase by 2.9% annually during the Initial Term of this Agreement, effective as of the Monthly Payment that covers any calendar month that includes an anniversary of the In-Service Date (and such increase would not apply to any part of a Monthly Payment that covers the days in a calendar month leading up to an anniversary of the In-Service Date). The payments shown below are before any applicable taxes and include a \$15.00 discount for paying through Automated Clearing House (ACH) withdrawal. If you do not elect automatic payment through ACH withdrawal from your checking or savings account, you will not receive this discount and each monthly payment will be \$15.00 greater. (As described in Section 6(a), the table below also is based on the assumption, for convenience purposes, that the In-Service Date will be the 1st day of the month.)

\* Pursuant to Section 7, you may prepay the balance of your estimated obligations under this Agreement. Any prepayments you make to Sunrun will increase the refunds for which you are eligible.

After the Initial Term, SunRun shall on each anniversary of the In-Service Date establish a new price per kWh that is equal to ten percent (10%) less than the "Average cost of electric energy" as established by your Utility or its successor. "Average cost of electric energy" shall be the price you would otherwise pay for electric energy to your Utility or its successor for the 12 months preceding the start of each Renewal Term.

Notwithstanding the foregoing, in no event shall this price per kWh be less than \$0.140 per kWh.

Pursuant to Section 10, if you purchase the Solar Facility before the Guaranteed Output has been achieved, Sunrun will issue you a refund. The estimates in this column assume the Solar Facility achieves its Estimated Output and that you make the final Initial Payment upon the first anniversary.
